# Weekly Learning Letter

Early Years

Week commencing 23.11.26

| | |
|---|---|
| **This week in Year Early Years …** | Our focus this week has been People Who Help Us through the night. We jumpstarted the learning with a visit from Noah.T's Mummy who is Paediatric Nurse. She talked to us about how she helps families when their little ones are unwell, she even has to help throughout the night time! The children have really enjoyed discussing different jobs that people have and why these are important. |
| **English**   | We have continued our learning using the 'Owl Babies' story. Our focus has been thought and speech bubbles. The children discussed the Zones of Regulation and how the baby owls felt at different moments during the story. If you wanted to discuss these further with your child please use this LINK to find more information on our website. The children wrote thought and speech bubbles about how they felt or what they might say when they see Mum has vanished. |
| **Maths**  | This week we have been learning about comparison of numbers. We started the week by building towers of 5. Our focus was adding one more to the tower each time. Towards the end of the week the children explored 2D shapes with the focus being on triangle and square. |
| **Phonics** | This week we have learned: ll and ss<br>We have also learned how to read polysyllabic words. We have learned how to break the word into parts to read it, this is called 'chunking'. |
| **Homework** | • Talk to your child about different zones of regulation. When you are sad what can you do to feel happy again? If you are angry, what makes you angry? How can you make yourself feel calm?<br>• Sing 5 currant buns together |
| **Reminders** | PE has gone back to all of the Early Years doing PE on Thursday.<br>Dolphins and Turtles need their PE kits on Thursday (although over the next few weeks PE may entail practising the Christmas Show)<br><br>Thank you |
