

Primary Professional Development Pathway

At Saffron Academy Trust Primary Schools, we believe it is our responsibility to nurture and grow our staff. Our Professional Development Pathway is designed to take teachers on a journey, supporting them from their NQT year through to the fourth year of their career and beyond.

Our Professional Development Pathway has two elements: a core entitlement which is delivered to all staff and optional professional development activities which can create a personalised package for each individual.

Through this rich and varied programme, we aim to offer every teacher a professional development pathway that is right for them; whether that be continuously honing their craft to achieve excellence in the classroom, developing a subject specialism or beginning to look beyond the classroom to work with other schools in Saffron Academy Trust.

Primary Professional Development Pathway

Core Professional Development Entitlement

Year 1	Year 2	Year 3	Year 4
