Independent Play Activity (1hr)

Decorate a cardboard box to become a fort, pirate ship, rocket- or something else! Or create a den using chairs/your duvet/pillows etc.

Learn a life skill you don't already know how to do e.g. tie your shoe laces, sew a button, learn and write your name and address in full (spelt correctly), fold clothes, peel vegetables safely, bake or cook something new all by yourself...

Go for a walk as a family. Use the image on the right as a scoreboard – each item you spot you get the number of points listed. Add all the points together at the end of the walk and see how many you have in total. Perhaps you might like to try a different route tomorrow and see if you can beat your score. Additionally, you could make your own point scoring sheet with items you might see on walks around you. You could even have a competition to see which family members spot the items first/spot the most of the items in total. Make a game of it and you set the rules!
