

POST ADOPTION TEAM

Post Adoption Team aims to support adoptive children and their families by assessing their individual and family needs and providing services to meet these.

The team also provide support to adults who were adopted and wish to access their files.

We also provide support and advice to birth relatives who are wishing to contact their relatives who have been adopted.

Those we work with at Post Adoption are; -

- Adopted children within their adoptive family who either require support themselves or their adoptive parents need support.
- Adopted children who are no longer living with their adoptive family but who have a plan of reunification.
- Adults who were adopted themselves and they require access to their birth records and the birth relatives of the individuals who have been adopted.
- Birth family members who need support in maintaining contact with adopted children
