

Move Towards the Light!

With special thanks to the children of Offley Endowed Primary School for their contributions.

Words and Music by Pete Letanka

There is hope for the future, be all you can be.
Look around and move towards the light.
Every day is a new day, just look and you'll see.
So, turn around and move towards the light.

We all have our ups and downs, sometimes we lose our way.
Do your best to flip that frown, and soon you'll be OK!
Try not to stress, take a breath, have a rest!
When the rain has all gone, we can all see the sun!

Let's keep working together
'Til our dreams come true.
What's that sound?
Let's move towards the light.
We'll be singing forever,
That's just what we do.
Now, look: we've found
The way back to the light, the light!

Shine, let's shine on every day
And shine in our own way.
Let's watch the whole world shine every day now.

Shine in every way, let's run to the sunlight,
Laughing every day, were shining so bright now!
Watching all the people finding their way
To shine every day now.

PART 1

Shine, let's shine on every day
And shine in our own way.
Let's watch the whole world shine every day now.
Shine, let's shine on every day
And shine in our own way.
Let's watch the whole world shine every day now.

PART 2

Shine in every way, let's run to the sunlight,
Laughing every day, were shining so bright now!
Watching all the people finding their way
To shine every day now.

x2

When the rain has all gone, we can all see the sun!
The sun!

Let's keep working together
'Til our dreams come true.
What's that sound?
Let's move towards the light.
We'll be singing forever,
That's just what we do.
Now, look we've found:
The way back to the light.
Now, look: we've found, yes, look: we've found,
Now, look we've found, yes, look: we've found
The way back to the light!
