Rock Your Child's Times Tables with TT Rockstars!

Dear Year 4 Parents,

Learning times tables is a key milestone in your child's maths journey—and TT Rockstars is a brilliant way to make it fun, fast, and effective! Here's how you can support your child using this app:

Why Times Tables Matter

By Year 4, children are expected to know all their times tables up to 12 × 12. Quick recall helps with division, fractions, and problem-solving. TT Rockstars turns this into a game, building speed and confidence.

Getting Started with TT Rockstars

- **Log in regularly**: Just 5-10 minutes a day can make a huge difference.
- Their log-in details are in their planner.
- A phone, iPad, tablet or PC works.
- **Use 'Garage' mode**: This is tailored by the teacher to focus on the tables your child needs most.

Try 'Studio' mode weekly (if your child is fluent): It helps track your child's speed and progress.

- **Celebrate their 'Rock Status'**: From 'Wannabe' to 'Rock Hero', these titles motivate kids to improve.
- **Soundchecks** help your child prepare for the MTC and are in the same format as the official MTC.

Tips for Parents

- **Make it routine**: Slot it in before dinner or after homework.
- **Stay positive**: Praise effort, not just speed.
- **Play together**: Challenge your child—you might be surprised!
- **Track progress**: Ask your child about their average speed and celebrate improvements.

What to Aim For

- The national expectation is that children can answer each question in under 6 seconds. TT Rockstars helps them build that fluency in a fun, pressure-free way.
- With your encouragement and TT Rockstars' engaging format, your child can become a times tables legend! Keep it light, keep it regular, and let the learning rock on!
